Experienced TSP Executive with a strong background in aviation operations, customer support, and training scheduling at Airbus India Training Centre. Skilled in managing complex operational workflows, coordinating cross-functional stakeholders, and delivering exceptional customer service in a fast-paced, global environment. Quick to learn and adapt to new technologies, with a strong aptitude for travel management systems, including GDS platforms such as Sabre and Travelport. Seeking to leverage my operational expertise, problem-solving abilities, and customer-centric approach to contribute effectively to a dynamic organization while continuing to grow professionally.

SKILLS

Cross-functional Collaboration, Customer Relationship Management (CRM), Customer Support, Documentation & Process Compliance., Operations Coordination, Problem Solving & Troubleshooting, Scheduling & Planning, Stakeholder Management, Time Management & Multitasking, Written & Verbal Communication

Languages : English, German, Hindi, Kannada, Tamil

WORK EXPERIENCE

Airbus India Training Centre • Gurugram, Haryana • 07/2025 - Present

TSP Executive • Full-time

- Managed end-to-end scheduling and coordination for **15+ pilot training programs per month**, ensuring **100% on-time training delivery** for airline customers while maintaining high customer satisfaction.
- Worked extensively with aviation scheduling and operational systems to coordinate pilot training schedules, resource allocation, and customer requests, enabling quick adaptation to industry-standard GDS platforms such as **Sabre** and **Travelport**.
- Acted as the primary point of contact for **50+ customer and stakeholder interactions weekly**, resolving scheduling conflicts and operational queries by collaborating with instructors, Central Operations, Finance, Quality, and Airbus internal teams, significantly reducing turnaround time for issue resolution.
- Processed and resolved **time-sensitive schedule modifications and last-minute customer requests** with minimal operational disruption, maintaining service continuity in a fast-paced aviation environment.
- Coordinated the allocation of **simulators, instructors, classrooms, and training resources** for multiple concurrent programs, maximizing resource utilization and preventing scheduling conflicts.
- Worked with cross-functional teams to troubleshoot **complex operational issues**, ensuring rapid resolution and seamless customer experience while consistently meeting operational SLAs.
- Prepared and maintained **100% accurate operational documentation, training reports, and scheduling records**, enabling informed business decisions and ensuring audit readiness.
- Partnered with Finance to process subcontracted simulator invoices, ensuring **timely invoice reconciliation** and uninterrupted vendor support.
- Supported customer audits and internal quality reviews by maintaining compliance with aviation and organizational standards, contributing to successful audit outcomes.
- Managed multiple high-priority tasks simultaneously in a global, customer-facing environment, consistently meeting deadlines while delivering proactive communication and exceptional customer service.
- Built long-term relationships with airline customers and internal stakeholders through timely updates, proactive issue resolution, and transparent communication, contributing to improved customer experience and stakeholder satisfaction.

IIT Madras • Chennai • 05/2023 - 07/2023

Bioinformatics Intern • Internship

- Designed and executed a comprehensive research plan to perform **Whole Genome Sequencing (WGS)** of *Acinetobacter baylyi* using computational analysis to identify potential genetic pathways for renewable energy synthesis.
- Integrated whole genome sequencing protocols to analyze the genetic makeup of *Acinetobacter baylyi*, ensuring accurate and reproducible genomic analysis.
- Conducted sequencing quality assessments using **FastQC** and optimized raw sequencing reads with **Trimmomatic**, ensuring high-quality data for downstream analysis.
- Performed accurate genome alignment using **BWA-MEM** and organized BAM datasets using **SortSAM** to streamline genomic data processing.
- Enhanced variant calling accuracy by compiling and analyzing genetic mutations using the **MAGE Genoscope Browser**, supporting reliable interpretation of sequencing results.

EDUCATION

Master of Science in Bioinformatics

Stella Maris College (Autonomous), Chennai, Tamil Nadu • Chennai • 07/2022 - 05/2024

Bachelor of Science in Bioinformatics

REVA University, Bengaluru, Karnataka • Bengaluru • 08/2019 - 07/2022
